

February is AWS special  
sweetheart month!  
~  
Reduced rates for long  
term residents!

Hello my name is....

# Halo

She had her leg removed in October,  
2015 and hasn't looked back since.  
Almost immediately she was back up  
on her feet, managing so much better  
without that leg, her balance  
improved and now she has regained  
strength she loves to be outside  
playing or going for walks.
